

PRO LINE SALES

HOSTING LINE

How does your web host compare to the PLS Hosting Line?

When choosing a web host, you need a company who will support your web site with technology that will protect your information. Even more, you need a web host who you can always reach for support.

SUPPORT

At PLS, we monitor your web site 24 hours a day, 7 days a week, 52 weeks a year, and we guarantee that your site will be viewable 99.9% of the year. In case a server does go down, every one of our servers is capable of running your site, so we can quickly move its files to another server and keep your site running while we recover the troublesome server. When you need support, you won't speak with a hired help desk because you have direct access to our technicians via e-mail, online forums, or our 1-800 number.

PACKAGE PRICING

Whatever your budget or hosting needs, our account executives will walk you through the process of selecting the best hosting package for your company. With a range of storage, bandwidth, e-mail account, database, statistics package, sub-domain, and pricing options, we're sure to have a hosting package that fits your company's needs.

SMARTSTATS STATISTICS

For every site we host, we provide access to SmartStats, an application that collects information about your site's visitors, including how long they stay on your site, from where they

- Coldfusion MX
- ASP
- ASP.NET v2
- PHP 5
- Frontpage Extensions
- Database support
 - Access
 - MYSQL 5
 - MSSQL 2005
- MySQL Database Admin
- SmarterStats
- Windows 2003 Servers
- SmarterMail
 - Webmail
 - SMTP
 - IMAP
 - POP3
 - Virus Scanning
 - Spam Filtering
- 24/7 FTP Access
- Hosting Controller

come, and what they do while on your site. When you know how your web site is being used, you can set realistic goals for its future use. SmarterStats integrates seamlessly into the cfConductor—the PLS proprietary content management system—and is easy to use.

SSL CERTIFICATION REGISTRATION

If you have a secure socket layer (SSL) certificate, PLS can register and set up your SSL, so you can extend your business to the Web. Don't have an SSL, but want to move your business into cyberspace? Our account executives can help you obtain your certificate.

Pro Line Sales is a marketing agency in the US and Canada specializing in commercial print, promotional products, design, web, hosting, strategy, and writing services. Our goal is to help businesses increase their revenues and create or expand their visual identity.
